If this is a generic agreement, I still think the funds should be set up generically and then moved to site specific thru a WAF. If this comes in to me as it currently is, it would get set up as a site specific agreement because it references a site name and has site specific funding so I would have no choice but to set it up site specifically.

Hi Jeff,-- and Marvene, please weigh in. Paula, the RPM, and Kate Garufi discussed the set up of this "generic" but site specific IA in this manner because of the need to keep the work accounting separate for PRP oversight and RI/FS lead work. I am copying Paula and Kate to weigh in also. I leave for an overseas trip tomorrow until May 18. If there are changes that have to be made, send them to me by email and I will do it next weekend when I return and then do the WAFs right away. Thank you everyone.

Robin, if this going to be a generic agreement, it would also be better if the funding that you used was generic and not site specific and then you would use the WAF to move the funds from the generic account to the site specific account. These funds appear to be regular S/F dollars and not Special S/F funding (TR1 or TR2) so it should be no problem for you to get that changed to generic funds (change site code from 0858TA00 to 08WQTA00).

Subject: Question: DW-96-95874701-0 - New Region 8 Generic IA (UNCLASSIFIED)

Classification: UNCLASSIFIED

Caveats: NONE

Jeff/Aaron/Robin - Attached is a copy of the new Region 8 Generic IA (DW96958747-01-0) I just received from IASSCWEST. It has been agreed the new Generic IA DW96958747-01-0 will be accepted by USACE EM CX (my office), Jeff Marsala (EPA Cincinnati Finance Center) will also record IA DW96958747-01-0 as a Generic IA in the EPA accounting system.

After the Generic IA is accepted by USACE, Region 8 intends to issue separate site-specific Work Authorization Forms (WAFs) for different work activities for Upper Animas projects.

Block #13 (Project Title and Description) needs to be revised as the title indicates it is a site-specific IA (there is no mention of the agreement being a Generic IA).

I recommend Block #13 (Project Title and Description) be revised to the following:

"Region 8 Generic IA for Technical Assistance (Upper Animas Technical Support)"

Delete - "USACE technical expertise to support EPA in conducting EPA lead activities and oversight of PRP activities in the Upper Animas Superfund Site" - this statement regarding the different work activities for the Upper Animas Superfund Site applies to the site-specific WAFs (not the bulk funded Generic IA).

Please revise Page 1 as noted above, and forward a replacement Page 1 to me.

Thanks!
